Since I was a little kid, I enjoyed the technology around us. Now is the time I contribute to it. Make it better and easier. This is my goal in life. To leave my fingerprint on the world.

EDUCATION

12/2019

BS, COMPUTER SCIENCE, JUBAIL UNIVERSITY COLLEGE

GPA 3.25/4.0

2019

DATA SCIENCE, IBM - COURSERA

8 Courses as part of a Professional Certificate on coursera.org by IBM for Data Science

EXPERIENCE

8 – 12 /2019

FULL STACK DEVELOPER, ROYAL COMMISSION FOR JUBAIL AND YANBU

I developed a full web application using angular for front-end and NodeJS-express for the back-end. The application integrated with the ERP and AD systems the RC had. Completed it in 5 weeks "6weeks include the initial planning and learning time"

5/2018 - 11/2019

RESEARCH ASSISTANT, JUBAIL UNIVERSITY COLLEGE

I worked in a team of 3 students and 2 PhDs on a research project between JUC and KISR "Kuwait Institute for Scientific Research"

SKILLS

- Fast learning and passionate programmer
- Already worked with the following:
PHP – NodeJS – Angular – Firebase – java – Flutter – Android
- Looking for the best, not just the right answer
- Code is readable and documented
- Helping group dynamic wither as a leader or a member

PROJECTS

- Jucbooks.com first project I ever deployed, it's a platform for selling used books we already have 550+ books.
- Working on the website for darraj group utilizing strava API
- Photography Club needed an application to manage their equipment I made one using java.
- mobile application using flutter with dynamic charts

ACTIVITIES

I was the president of the Computer Club at JUC for two years. Can't express the joy and knowledge I got from those years Outside of the college, I was a member of my neighborhood team for "بصمة حي" program for two years we won the first place as the most active neighborhood on the city
